

Property valuation evidence without the admin burden.

A streamlined way to request, manage and receive SMSF property valuations for annual audit workflows.

SISR 8.02B aligned

Audit evidence

Bulk-friendly workflow

Built around the matters you actually handle

Clear scope. Qualified professionals. Structured reports. Simple online ordering.

Structured evidence

SMSF reports are designed around market-value evidence, comparable sales and a documented valuation approach.

Less chasing

Centralise requests, client references and report delivery instead of managing disconnected emails and attachments.

Consistent workflow

Use a repeatable process for individual properties or larger client portfolios across Australia.

Property decisions need evidence, not guesswork.

Make property valuation evidence easier to manage

Technology handles the workflow. Professional valuation input is available where the engagement requires independent judgement and a registered valuer report.

- ✓ SMSF valuation options aligned to SISR Regulation 8.02B and ATO valuation expectations.
- ✓ Comparable sales and clear methodology help support the audit trail.
- ✓ Fund, client and matter references can be captured for easier reconciliation.
- ✓ Single-property and bulk-oriented workflows reduce repetitive administration.
- ✓ Reports are delivered digitally and can be retained with audit working papers.
- ✓ Australia-wide access to property valuation capability.

A straightforward workflow

Less chasing. Better valuation evidence.

Build a simpler property valuation process into your SMSF audit workflow. See product options, sample reports and current pricing online.
